APPOINTMENTS, SCHEDULING & INTERPRETER SERVICES
BEFORE YOUR APPOINTMENT

- You should receive an appointment reminder call.
- For all your medical appointments, it may be helpful to confirm your appointment the day before, especially if you live out of town.
- Plan to arrive a little early.
- If you need lab work completed before your next appointment, ask your health care provider when you should have it done.
- Consider bringing a family member or friend with you for support.
WAITING FOR YOUR APPOINTMENT

- Your time at the Cancer Center may take longer than expected based on:
  - Laboratory tests involved
  - Diagnostic procedures (X-rays, CT scans, etc.)
  - Number of appointments you have
  - Types of treatments
  - Doctor’s schedules

- Wireless internet service is available.

- Bring a book, food, snacks, or a laptop computer, etc. to enjoy.

- **Satellite** is the closest restaurant, just south of the Cancer Center.
SCHEDULING YOUR APPOINTMENTS

- **Appointment Scheduling**
  
  - After your doctor’s appointments, most often you will go to the main check out windows or to a specific scheduling area on the third floor to schedule your follow-up appointments.
  
  - If required, you will be called by our scheduling staff to schedule follow-up appointments.

- To cancel or reschedule appointments, please call *(505) 272-4946* at least 24 hours before your scheduled appointment.

HELPFUL INFORMATION
MEDICATIONS

1) Fill out the Medication List form which was sent to you in your packet. Remember to include all:
   - Prescriptions
   - Vitamins or supplements
   - Over-the-counter medications
   - Herbal preparations

2) Update the form regularly.

3) Bring the updated form with you to every appointment.
PREScriptions

1) The fastest way to get your medication prescription refilled is to ask your doctor during your doctor’s appointment.

2) Call your pharmacy and ask your pharmacist to contact your doctor for the prescription.

3) Call the Cancer Center’s prescription refill line at (505) 925-0290. Allow 48 hours.

4) If possible, try to get all of your medicines from the same pharmacy so the pharmacist can check for drug interactions and can help answer questions about side effects.
PATIENTS NEED INFORMATION

- Patients need good information in order to make good decisions about their health and health care.
- Some reasons why it may be hard to learn new information may include:
  - Hearing problems
  - Speaking a different language
  - Not understanding medical terms
  - Feeling nervous, scared, anxious and/or overwhelmed
  - White Coat Syndrome – blood pressure rises due to anxiety when you meet with a doctor
  - Trying to learn a lot of information in a short amount of time
  - Different learning and communication styles
ASK QUESTIONS

- Write down specific questions to ask your doctor before each appointment.
- Ask the most important questions first.
- Write down the answers.
- Ask questions until you understand.
- To make sure you understand, use your own words and explain to your healthcare provider what you heard him/her say.
- Consider bringing a family member or friend with you for support.
- No question is a bad or wrong question.
QUESTIONS YOU MAY WANT TO ASK

- What is the name of my cancer?
- What is the stage of my cancer and what does it mean?
- What are my treatment options?
- What are the goals of the treatment, and what is the success rate?
- How long will the treatment last?
- What are the risks of this treatment?
- What are the side effects of this treatment?
- Will you provide written material about the cancer that I can take home to read?
