

UNM Cancer Center Biostatistics Shared Resource Support Request Form

To request support from the Biostatistics Shared Resource, please complete this form and submit it electronically (below) or email to Dr. Ji-Hyun Lee. Your request will be reviewed promptly and we will schedule a meeting to discuss your project, including outlining how and when the resource can assist you.

Guidelines for Working with the Biostatistics Shared Resource (BSR)

Prior to completing the form below, please review the guidelines for working with faculty in the BSR:

- Although the purpose of the BSR is to provide support to UNM Cancer Center members, the preferred mode of interaction is through productive collaborations in which biostatistics faculty become long-term collaborators within research teams, with funding from grants.
- Please provide sufficient lead time. Examples of time guidelines are:
 - o Grant submission with basic statistical support: **1 month**
 - o Grant submission with major statistical collaboration: **3 months**
 - o Grant submission with multiple projects: **4 months**
 - o Letter of support for grant: **1 week**

Contact Information

Investigator's First Name

Investigator's Last Name

UNM Email Address

Telephone Number

Are you a member of the UNM Cancer Center? Yes
 No

If no, please give the name of the UNM Cancer Center faculty sponsor

If not you, please list the PI for this project

Please note:

If there is not a UNM Cancer Center faculty sponsor you may not be eligible for shared resource support.

Research Project Background

Type of Project

- Investigator-initiated protocol
- External grant/contract application
- Existing externally funded grant/contract
- Existing internally funded grant
- Publication in peer-reviewed journal
- Conference abstract or presentation
- Other (describe below)

Other Project Type (100 characters or less)

Biostatistical Support Requested (select all that apply)

- Study design
- Sample size and power calculations
- Planning for statistical analysis of data
- Statistical analysis of existing data
- Statistical genetics expertise
- Writing sections of grant proposal or protocol
- Writing appropriate manuscript sections
- Generation of figures for publication
- Other (describe below)

Other Support Requested (350 characters or less)

Project Title

Brief Description Study (1500 characters or less)

Desired Completion Date

For Grant or Contract Proposals (fill in as applicable)

Funding Agency

Type of Award
(e.g., RO1, K23, etc.)

RFA Number

Proposal Due Date

Grant Period From

Grant Period To

**Time Statistical Effort
Proposed in Application**
