Research Supplements to Promote Diversity in Health-Related Research

What is a Diversity Supplement?
The NCI Research Supplements to Promote Diversity in Health-Related Research (Diversity Supplements) support research training for individuals from underrepresented groups throughout the continuum from high school students to investigators.

What Does a Diversity Supplement Offer?
This award offers several benefits, including:

- Support to advance academic and professional careers in cancer and biomedical research
- Budget that includes salary and fringe benefits for candidates, tuition for students, and limited supplies and travel with justification
- Opportunities to network with peers, mentors, and NCI Program Officers
- A gateway to further NCI and NIH funding opportunities

Important Application Information
Principal Investigators (PIs) of parent grants are required to submit the application. Applications must include:

- Candidate qualifications and motivations
- An explanation about how the research project is relevant to the parent project and how it aligns with the candidate's career goals
- A clear description of the role of the mentor(s) and their qualifications
- A candidate-specific career development plan with appropriate benchmarks

Who is an Eligible Candidate?
Eligible candidates include:

- High school, undergraduate, or graduate students, Baccalaureate or Master’s degree holders, postdoctoral fellows, or investigators
- Individuals from a racial or ethnic group underrepresented in the biomedical, behavioral, clinical, or social sciences, individuals with a disability, or students from a disadvantaged background
- U.S. citizens or permanent residents

Please see the program announcement for additional eligibility criteria.
